THE MARKET

The Precision Turned Parts Market

A huge amount of growth and potential continues to build in the precision turned parts manufacturing sector. *Production Machining* is YOUR source to reach qualified decision makers.

Precision Machined Products Industry

PMPA's production index is a leading indicator of equipment sales. This chart shows that turned parts industrial production is as strong as it has ever been. Unlike many other industries, the turned parts industry has had a complete recovery from the economic crisis in 2008. Both of these lines indicate that equipment sales for turned product will continue to grow in 2013.

Webinars

INVESTMENT: \$5,000

Gain credibility in the metalworking marketplace while securing leads. Sponsoring a webinar through PM allows you to get in front of an audience that is actively seeking solutions to a problem your product can fix.

WEBINARS INCLUDE:

- Live webinar moderated by a PM editor.
- Print ad promoting in *Production Machining* magazine.
- E-mail invitations to PM e-newsletter opt-in audience.
- PM Inbox Insights e-newsletter advertisement.
- Custom lead report including all registrants.
- 6-month archive of the webinar session on PM Online.

Knowledge Centers

INVESTMENT: Contact your PM Sales Rep.

Share your knowledge with a highly focused and qualified metalworking audience. A sponsored Knowledge Center offers your company a multi-media platform to demonstrate your capabilities as an expert within a specific product or process technology area.

KNOWLEDGE CENTERS PROVIDE:

- Exclusivity by content focus.
- Perception of industry expertise.
- Interaction with interested technology buyers.
- An integrated promotional program including a strong online, e-newsletter and print presence.
