STEP 1: As attendees register, they will be asked what types of products they are interested in seeing at CAMX. These answers will correspond to the CAMX product categories so that when attendees create a MyCAMX Planner at the end of registration, exhibitors will be suggested. (Maximum per attendee: 30)

STEP 2: Based on the results of STEP 1, exhibitors will be allowed to email registered attendees and invite them to their booth!

CAMX 2024 attendees will use MyCAMX to research and plan all aspects of their visit to the show. MyCAMX visitors create customized agendas listing the companies they want to see, and they can choose to share their information with the exhibitors they select – generating leads for you!

The screenshots illustrate the MyCAMX user interface. Panel A shows the search results for 'ABARIS Training Resources Inc.', highlighting its location and product categories. Panel B shows the profile for 'Hexcel Corporation', featuring a video gallery and detailed company information. Panel C shows the profile for 'Composites One - The Lean Mean Process Machine', including a video of their machinery and contact details. A search filter overlay is also shown, allowing users to refine their search by keywords and categories.
