INDUSTRIAL MANUFACTURING EVENTS

INDUSTRY EXTENSIONS

EVENT PARTNERSHIPS

ASSOCIATION PARTNERS

We started out 95 years ago with one magazine and a boundless passion for sharing the expertise, innovations and stories that move manufacturing forward. Since then, we've grown and gained a distinct mastery in explaining industrial technologies and processes that are celebrated by, and in, our vertical products and services, spread widely across the markets that deeply impact our world every day.

Today, Gardner Business Media is an award-winning, full-service marketing network of progressive industrial media brands, events and experiences. Our team will help you build a uniquely powerful strategy from our comprehensive menu of marketing services and solutions, and work directly with you to reach your goals and stay within your budget.

While we'll never forget our single-magazine origins or cease to honor the legacy of our past, the dedicated, talented team at Gardner Business Media is committed to vitalizing the future, YOUR future, and ensuring we always make the best and freshest opportunities for you to succeed.

# The Industrial Media Network For Serious Industrial Buyers

MoldMaking Technology provides high-value industrial sales and marketing solutions that deliver meaningful ROI for your business.

AUDIENCE + CONTENT + CHANNELS = RESULTS

Qualified professionals actively requesting and engaging with our content.

Unbiased information and insights that attract, educate and influence.

Integrated media channels that are known, trusted, shared and visited.

More leads that convert into a bigger and better return from your investment.

"I page through *MoldMaking Technology* every month to learn what is going on in the moldmaking industry. There are always informative features with dynamic images showing what other shops and suppliers are doing."

Jose Resendec, Helm Tool

# A Market With A Different Mindset

## MEET THE M2M BUYERS

Standard marketing tactics that work well in the B2C and B2B world aren't guaranteed to hit the mark with the M2M (Manufacturer to Manufacturer) audience. Research conducted specifically about M2M decision makers reveals consistent behaviors and preferences beyond basic demographics. To effectively reach this unique audience of hands-on industrial engineers, entrepreneurs and executives, you need to understand how these individuals make purchasing decisions and the right way to communicate with them.

### YOUR BUYER

-  Conducts up to 45% of research offline
-  Conducts research using at least three types of media
-  Values advertising but dislikes feeling they are being "sold to"

### YOUR BUYING TEAM

-  Consists of three or more team members
-  Includes alternate vendors in 94% of purchases
-  Is motivated by technology need in 47% of purchases

### MEDIA PREFERENCES

-  Favors non-sponsored search returns from known online sources
-  Likes how-to and demo videos but dislikes ads that cannot be skipped
-  Gravitates toward known, trusted and unbiased information sources

### LEARN MORE ABOUT YOUR BUYER

Download the latest results from our Industrial Buyer Survey.

The Three Pillars of *MoldMaking Technology* Coverage

ENGINEER

Design and engineering a quality mold involves employing technologies and strategies to de-risk a product launch, including CAD, part and mold simulation, CAM, data management and troubleshooting during tool validation.

BUILD

A variety of processes are used to build a mold, such as 3D printing, machining steel or aluminum, cutter selection, EDM, electrode manufacturing, automation, as well as incorporating proper mold materials, mold components and hot runner systems.

MAINTAIN

To keep a mold running, it needs to be properly maintained and repaired. Essential processes include inspection and measurement, surface treatment, cleaning, mold tryout, welding and retrofitting.
